HALCYON DAYS

Strengthening bonds beautifully for over 65 years

Quintessentially English

Halcyon Days 1950 – the guardian of two of the oldest English crafts - enamelling onto copper & the hand - making of fine bone china. A business of tradition in the best sense of that word: skilled craftsmen and master artists using skills and techniques passed down through generations. Handmade in the heart of England. Products you will fall in love with.

The image features three overlapping plates with a bold, geometric pattern in navy blue and white. The pattern consists of interlocking squares and diamonds, creating a complex, tessellated design. Each plate has a thin, polished gold rim. The plates are arranged in a way that they overlap, with the top plate partially covering the middle one, and the middle one covering the bottom one. The background is a solid, light color, making the patterned plates stand out.

The Midnight Collection

Inspired by the Tudor court of Henry VIII and his first Queen, Katherine of Aragon, this collection of bold and dazzling pieces is taken from the architectural elements that can be found at Hampton Court Palace. The Aragon pattern has been inspired by The Historic Royal Palaces Collection of woven furnishing fabrics designed by GP & J Baker. As a fellow Royal Warrant holder with an international reputation for delivering magnificent fabrics, wall coverings and trimmings, it's the perfect collaboration.

GORDON CASTLE
SCOTLAND

The Halcyon Days Antler Trellis range is inspired by the original domed ceiling in Gordon Castle, which, decorated with hundreds of stag antlers, formed the most breath-taking display. This exquisite Antler Trellis design is the creation of a contemporary classic, and the epitome of luxury English Fine Bone China.

VANDA JACINTHO - Treasures of the Sea Collection

An homage to the natural wonders of the ocean, the Vanda Jacintho 'Treasures of the Sea' Collection playfully fuses motifs representative of the tropics. Seashells set against a soft blue background and coral reefs work together to create a range of English fine bone china, which instantly transports one to the warmer climes of Mustique and Saint-Barthélemy.
