In 2001, Jérôme Lambruschini transformed his commitment for green beauty into a natural and engaged skincare brand.

The cosmetic brand, which began nearly 20 years ago with scented soap bars - successors of Marseille soap - rapidly expanded its portfolio to extend its expertise to fragrances, body care products and, last year, face care products. A pioneer in terms of its commitment to naturalness, Panier des Sens communicates transparently on the naturalness of its formulas, but also on the origin of ingredients sourced in Provence from organic producers.

Today, thanks to you, one Panier des Sens product is sold every 12 seconds in the world!

# HISTORY AND KNOW-HOW

## The brand BORN IN PROVENCE

It is in 2001, in the South of France, in the heart of Provence, that Panier des Sens is born. Inspired by natural resources and Mediterranean know-how, we take the best that Provence has to offer to develop natural, simple and authentic products.

## Natural Cosmetics KNOW-HOW

Panier des Sens develop for almost 20 years its product skills with the masters soap makers from Marseille and perfumers from Grasse unique know-how. The natural and vegan formulas are designed and conceived in France, always encouraging short circuits and local partnerships.

## The founder A FAMILY STORY

Born in Marseille and nurtured from an early age in the gentle lifestyle of Provence, Jérôme Lambruschini grew up in the shade of the cypress trees and mimosas of the Southern Alps region.

# OUR COMMITMENTS

Our commitment respect the essence of matter to extract the best active ingredients and ensure the irreproachable quality of our products.

# BEHIND THE LABEL

## SUSTAINABLE DEVELOPMENT

Our fascination for nature encourages us to improve our products and manufacturing processes with an ecological, economic and social approach to managing our resources and heritage.

Since 2009, Panier des Sens has been part of the EVADD collective's sustainable development action, in partnership with AFNOR (international standardisation body).

## CHARTER OF FORMULATION

Our charter of formulation reconciles Nature and Research to offer the best of the efficiency, and the sensoriality to all the skins.

We aim to exceed the standards we have set ourselves, to remain ahead of changes and to guarantee a continuous progress approach. Tested under dermatological control, the Panier des Sens beauty cares do not use petro-chemical materials which do not biodegrade well and are sensitive to health.

# THE PANIER DES SENS GARDEN

Located in new premises in Marseille since 2017, today Panier des Sens is breathing new energy into its Corporate Social Responsibility policy, notably with the project to develop a 4,500m<sup>2</sup> tree-planted garden.

Via a participatory project, Panier des Sens intends to improve the working environment of its employees while working on raising awareness of environmental and climate issues.

Thus, an exceptional eco-system has been designed to make this space an area of nurtured biodiversity, but also a place for conviviality and well-being.

Key raw materials used in the composition of the brand's formulas, such as olive, almond and grape, will be planted there, along with rare species endemic to Provence, such as aromatic plants and fragrant plants.

# THE DISTRIBUTION CHANNEL

Thanks to you, Panier des Sens is growing, with increasingly selective distribution and a network of its own stores ensuring the brand's reputation and visibility. A true sensory voyage, the Panier des Sens stores are inspired by the herbalists of Provence, illustrating our philosophy as a trader and grower and featuring authentic and elegant apothecary furniture. In Paris, Aix-en-Provence or Seoul, the Panier des Sens stores awaken the senses.

## GARE DE LYON

During the semester of 2020, the brand will be unveiling its new 66m<sup>2</sup> boutique in Galerie des Fresques in Gare de Lyon in Paris. This prime location will be seen by more than 165 000 visitors.

## THE FORMULATION

The Research Department of Panier des Sens constantly implements its resources to improve its knowledge of plants and to study the way they interact on the skin. Plant-based raw materials, ingredients from organic farming, and locally-grown plants are always given precedence. Thanks to this botanical knowledge, we can offer products today that are increasingly natural, as well as more technical and innovative conservation methods.

For the Panier des Sens formulation teams, every criterion is important: stability, effectiveness, ease of application, sensory qualities, appearance, fragrance, etc. Everything is designed and calibrated to ensure that every product is safe, effective and increasingly sensory. # PRECIOUS JASMINE

## ABSOLUTE PERFUMES

The small delicate blossoms of Jasmin Grandiflorum were already used in the 16th century by the first master glove-makers perfumers of Grasse. Very quickly, this veritable plant gem became an essential element of perfumers’ palette and found itself in the heart of Grasse horticulture. On the skin, the harmony of a bouquet of sensual white flowers offers sparkling and radiating fresh notes.

SCENTED CANDLE

Illuminate your home with softness and harmony. Once lit, the candles turn into beautiful candleholders for delicate perfumed moments, and offer a refined and cozy ambiance from Provence. Because each perfume is unique and reacts to heat differently, a great deal of work goes into

striking the right balance. Therefore, each candle is the result of a unique blend of quality waxes. Each fragrance is thought as an olfactory world in its own right, with intense diffusion power, thanks to its 100% cotton wicks.

# EXTRA-GENTLE VEGETABLE SOAPS

In keeping with traditional deep-down perfuming, the quadruple-milled soaps are delicately wrapped in protective presentation paper to preserve all their freshness. Their natural plant base, combined with a soft, delicately perfumed foam, will leave your skin as smooth as velvet. This is an extremely gentle soap, with fatty acids providing better compatibility with your skin while preserving all the cleansing power of soap.
