Pagod is a stylish vase that brings you back to the 60's. The vase is mouth-blown by skilled glass blowers at the glass works in Kosta. The technique is called underlay, a multi-layer glass which means that clear glass lies like a casing over the stained glass and gives a beautiful and processed expression. The playful design is the work of Anne Nilsson. She is one of Sweden's most important glass designers and can take advantage of the craftsmanship, the simple language and function in an extremely elegant way. This vase is designed to give cut flowers a beautiful expression.

Pluto

LENA BERGSTRÖM · 2019 · **NEW ITEMS**

Among sparkling, rolling and mysterious planets, Pluto takes its place in the universe of Lena Bergström. The vase is mouth-blown and manufactured by skilled craftsmen in Småland and the neck is decorated with genuine platinum. The decor is brushed on and then burned into the glass. Pluto vase has a Scandinavian, exclusive expression that fits homes where pure design is high on the wish list. The vase has a generous volume and works just as well as home décor, both with and without flowers.
